NOTES

- Maximum unreinforced wall height is 33"
- Coventry Wall III comes with splittable units to create corners: One 16" unit per layer is solid with no channels.
- Two pins/block needed (except under cap)
- For Coventry Wall III, the tightest radius possible using only the 10" and 6" long units is 33½". Using all sizes, the tightest possible radius is 48" to the back of the block.
