Profiled & Tumbled Solid Masonry Units

The same process that created our best selling Coventry® line of Pavers and Retaining Wall Systems is now available in a mortared wall application. The first offering in our new Coventry Masonry Wall Systems™ is BishopStone™, a softly textured product that comes in 14 sizes to create beautiful ashlar patterns typically only found with natural stone.

High compressive strength (>7,000 psi), low moisture absorption (<5%), and modular sizes make BishopStone a superior performer.
Sizes And Approximate Pieces Per Cube*

*The pieces per cube for each size are approximate, and will vary from cube to cube. The total square feet will always equal or exceed the number stated.

Sizes:
- 13.4" x 13.4" (8 pieces)
- 13.4" x 5.5" (24 pieces)
- 11.4" x 5.5" (24 pieces)
- 13.4" x 9.5" (16 pieces)
- 11.4" x 3.5" (24 pieces)
- 9.5" x 5.5" (16 pieces)
- 9.5" x 3.5" (16 pieces)
