Thank You, Colleen Boyce

Please Note: that upon successful completion of the classroom based course and exam, participants will receive a Record of Completion from ICPI, about a month after ICPI receives the course materials. Those interested in earning an ICPI Concrete Paver Installer certification will need to complete an Application for Certification, showing that they meet the minimum installation experience requirements (5 or more projects totaling at least 10,000 sq. ft.). Additionally, continuing education will be required during each two-year certification term.
